Subsea Light

Powerful HID Subsea Light featuring a 6081 aluminium housing for excellent resistance to seawater corrosion whilst dissipating heat to the surrounding water

Also available as with LED light source option allowing dim-able light output

Specification

Housing	
Housing Material	6081 Aluminium
Dimensions	diameter 95mm x length 160mm housing + 60mm connector
Weight (in air)	2kg
Power Consumption	55w
Connection Type	Birns BH8M

HID	
Lamp Type	HID
Lamp brightness	3200 Lumens
Colour temperature	6000°K
Power requirement	13.8 Volts , 4 Amps

LED	
Lamp Type	LED
Lamp brightness	various
Colour temperature	6000°K
Power requirement	12 to 36 Volts dc
